PROFILE

I am a Computer Engineer with a Master's in Computer Science and Engineering at Instituto Superior Técnico in Lisbon, Portugal. I am passionate about technology and problem-solving. I love the idea of solving a problem and creating something useful through coding. I see myself as a full-stack developer, with a greater focus on the backend side, but I'm also capable of creating a simple and responsive UI. I'm specialized in Distributed Systems and have some experience creating client-server applications, both for web and mobile devices.
